

# NEXER TELESCOPE

Our consultants have supported international companies and brands with global expertise for over 25 years, helping maintain Sweden's tech and industrial development at the highest global standards. We deliver to create real value. Our clients span a diverse array of industries, including Retail, Energy, Automotive, Telecom, Consumer Electronics, Industrial Systems & Manufacturing, MedTech, Startups.

If none of our hundreds of **consultants in Sweden** are available, Telescopes' proactive efforts maintain a pool of over 1,500 experts and engineers, ready to be onboarded in Sweden. Over the years, we have developed deep in-house expertise in recruitment, relocation, and expat services, ensuring we deliver the best value for both our customers and employees.
